

## how to fund your project

We support art projects open to the public.

We allow proposals for art projects from institutions, curators and artists working together with an institution or curator.

We fund projects where our support makes a difference.

There are three rounds of support each year: January, May and September.

The deadline to apply the proposal for your project is the first of each month.

### **DEADLINES:**

- January 1st
- May 1st
- September 1st

We strive to respond by the end of the month.

The format to apply is free. We hope this provides the freedom to share the vision of your project in the best way possible and allows for efficiency with other proposals.

This way we are given an insight into the way you work. Please make sure your proposal includes an overview on how the required funding fits within the overall budget.

Every proposal will be evaluated based on the following criteria:

- **At the outset**  
Your project is situated at the outset of a development within the arts and/or at the outset of the practice or path (mid-career) of an artist, curator and/or institution.
- **Relevant**  
Your project captures the Zeitgeist and/or reflects on matters of great social value.
- **Acceleration**  
The support of the project provides a significant development in the practice of the artist, curator and/or institution.

Finally, our support goes to the projects that trigger the imagination and provide us with a surprising new outlook to the world around us.

Please send your proposal to:
